PROJECTS

Blog Platform Live Demo | GitHub | API Docs
React, Vite, Tailwind CSS, Django REST Framework, PostgreSQL (Neon), Cloudinary, Brevo

- Hardened security with server-side XSS sanitization (Bleach) and rate-limited auth endpoints.
- Added drafts, scheduled posts, comments with replies, likes, bookmarks, follow system and notifications.
- Removed N+1 queries with select_related/prefetch_related and co-located backend and database to cut latency.
